JAPANESE CHILI RINGS & STARS

We are pleased to introduce this decorative and flavourful product! This blend of rings and stars made from Japanese Chilis, also known as Japonese, contain a medium heat level that is perfect for adding dashes of spice and colour without overpowering the dish.

Japanese Chili Rings are typically 2-3 mm thick with a beautiful red colour.

The stars are cut by laser to ensure a clear and uniform shape.

Use the Japanese Chili Rings and Stars to decorate plates, salads, soups, sauces, and any dish that your imagination leads to.
