

Black Hawaiian Sea Salt

We are pleased to introduce our latest product - Black Hawaiian Sea Salt. This salt has the dark colour of coal without any gray pieces.

Black Hawaiian Sea Salt receives its colour from the activated charcoal that is bonded to the pure Pacific Ocean sea salt. With a silky texture and dramatic colour, Black Hawaiian Sea Salt is the perfect way to add both colour and flavour to your menu.

Black Hawaiian Sea Salt is the perfect finishing salt. Sprinkle it on seafood such as seared halibut and salmon.

It is also wonderful on grilled vegetables, potato dishes, and roasts.

Use the Black Hawaiian Sea Salt in your pasta dishes, as well as seafood dishes with clams, mussels, and scallops.
