

FIRE ROASTED CHIPOTLES DICED

Introducing our latest product - Diced Chipotle Peppers !

Chipotle peppers are actually Jalapeño Peppers that are left on the vine to further ripen and turn red in colour, and then smoked.

Dating back to the Aztec civilization, this pepper will find their way into multiple aspects of your menu.

Chipotle Peppers add a bold, hot and smokey flavour to your creations. On average 10 lbs of Jalapeños are needed to create 1 lb of Chipotle peppers.

Easily added to chili, sauces, stews, rubs, and dips, diced Chipotle peppers will add the aroma, colour, and flavour that you seek.

Add the diced Chipotle peppers to your hamburgers or meatloaf for added heat, or mix with mayonnaise and sour cream for a delicious dipping sauce.
