

GREEN PEPPERCORN SAUCE

We are pleased to be able to finally introduce this wonderful sauce!

Your customers will have never tasted anything like it. We have been able to find the finest freeze-dried green peppercorns, allowing us to create this classic with a demi-glace base, red wine, whole and crushed green peppercorns , and cream.

A favourite with pan-fried or grilled steaks, this flavourful creation has a wide variety of uses such as with pork loins, veal fillets, Cornish hens, rabbit, and wild game. The plentiful peppercorns rehydrate to a soft consistency and have a beautiful green colour.

It is ready to use as such - or enhance it to your own taste with the addition of brandy or cognac, a shot of 35% cream and a touch of Dijon mustard.
