

FREEZE DRIED ORANGE SEGMENTS

We are pleased to introduce Freeze Dried Orange Segments. Orange provides an unmistakable flavour and aroma for a variety of applications. The freeze dried pulp of the sweet orange re -hydrates instantly providing an amazing ease of use. These segments do not contain any zest and therefore only the sweet and juicy flavour of the orange is present. Add the Freeze Dried Orange Segments to your menu and have the wonderful taste of orange without the peeling, dicing, and juicing that the application of orange usually requires.

The Freeze Dried Orange Segments are wonderful in salad dressings, marinades, and rubs. Add the segments to your chicken, beef, and shrimp stir-frys for a fresh flavour.

Perfect for desserts, use the Freeze Dried Orange Segments in baking applications. The segments can also be applied to souffles, and our Neutral Mousse for a delicious flavour and colour.

Add the Freeze Dried Orange Segments along with an orange liqueur to our Demi Glace sauce to create a wonderful sauce for pork, chicken, and duck.
