

FREEZE DRIED POMEGRANATE POWDER

Freeze Dried Pomegranate Powder is the latest product that Esslinger Foods is proud to introduce. Pomegranates contain ruby red arils, the gem-like juice sacs that surround the seeds and provide the tart juice that is so highly sought after. We have Freeze Dried this juice to provide a potent and convenient form. Just a pinch will provide all the flavour and colour of pomegranate without the soaking, seeding and straining that is required from whole pomegranates to obtain the fresh juice.

Use the Freeze Dried Pomegranate Powder to create wonderfully colourful and delicious salad dressing and marinades.

The tart flavour of pomegranate is a perfect contrast to the sweetness of chocolate - use the freeze dried powder to create unique desserts.

Add the Freeze Dried Pomegranate Powder to sauce, such as Demi Glace, for an innovative twist to your menu.

Pomegranate is a perfect addition to curries. Add the freeze dried powder to your lamb and chicken curry dishes.
